CONTENTS

Number 1, Jan/Feb 1984

1 Annotation
Can viral envelope glycolipids produce auto-immunity, with reference to the CNS and multiple sclerosis?
H. E. Webb and J. K. Fazakerley

11 Tullidora (*Karwinskia humboldtiana*) toxin mainly affects fast conducting axons
A. Hernández-Cruz and E.J. Muñoz-Martínez

25 Intracranial cavity volumes: a new method and its potential applications
C. Harper, Jillian Kril, D. Raven and Narelle Jones

33 Endothelial growth factor production in cultures of human glioma cells
H. Hirschberg

43 Significance of fluid flow for morphology of acute hypoxic-ischaemic brain cell injury
L. Paljärvi, J. Alihanka and H. Kalimo

53 Immunohistochemical demonstration of amyloid P component in cerebrovascular amyloidosis
I. F. Rowe, O. Jensson, P. D. Lewis, J. Candy, G. A. Tennent and M. B. Pepys

63 Observations on the nature of subependymoma: an electron microscopic study
T. H. Moss

Number 2, Mar/Apr 1984

77 Immunological reaction of the demyelinating Semliki Forest virus with immune serum to glycolipids and its possible importance to central nervous system viral auto-immune disease
H. E. Webb, Surekha Mehta, N. A. Gregson and S. Leibowitz

85 *In vitro* methyl mercury inhibition of protein synthesis in neonatal cerebellar perikarya
T. A. Sarafian, M. K. Cheung and M. A. Verity

101 The evolution of intracellular responses to acrylamide in rat spinal ganglion neurons
H. B. Jones and J. B. Cavanagh

123 Automated differential cell counting on a sector of the normal human hippocampus: the influence of age
A. K. H. Miller, R. L. Alston, C. Q. Mountjoy and J. A. N. Corsellis

143 The function of perineuronal satellite oligodendrocytes: an immunohistochemical study
S. K. Ludwin

151 Case report: Spinal cord transection, cerebral ischaemic and brain-stem injury in a baby following a Kielland's forceps rotation
S. J. Gould and J. F. Smith

159 Book reviews

Number 3, May/June 1984

163 Acetylcholinesterase activity and its fast axonal transport in rabbit sciatic nerves during the recovery phase of experimental allergic neuritis
Ritva Oikarinen and Hannu Kalimo

173 Sequence of murine coronavirus JHM induced neuropathological changes in rats
M. Koga, H. Wege and V. ter Meulen

185 Alzheimer's presenile dementia, senile dementia of Alzheimer type and Down's syndrome in middle age form an age related continuum of pathological changes
D. M. A. Mann, P. O. Yates and B. Marcyniuk

209 Asymmetric budding of viruses in ependymal and choroid plexus epithelial cells
K. Kristensson, B. Lundh, E. Norrby, L. Payne and C. Orvell

221 Acrylamide-induced remodelling of perikarya in rat superior cervical ganglia
A. B. Sterman

235 Case report: Multiple intraspinal and intracranial epidermoids and lipomata following gunshot injury
C. M. L. Smith and W. R. Timperley

241 British Glioma Group meeting, Bristol 8 April, 1983

243 Book reviews

Number 4, July/August 1984

245 A Golgi study of cerebellar atrophy in human chronic alcoholism
I. Ferrer, I. Fabregues, M. Pineda, I. Gracia and T. Ribalta

255 The effect of age on biochemical and morphological changes in the semitendinosus muscle of cattle with generalized glycogenosis type II
J. McC. Howell, P. R. Dorling and R. D. Cook

267 Evolution of the intracellular changes in neurons caused by trimethyltin
A. W. Brown, J. B. Cavanagh, R. D. Verschoyle, M. F. Gysbers, H. B. Jones and W. N. Aldridge

285 Kainic acid seizures and the reversibility of calcium loading in vulnerable neurons in the hippocampus
M. C. Evans, T. Griffiths and B. S. Meldrum

303 Proceedings of the sixty-sixth meeting of the British Neuropathological Society held at the London Hospital, 12–13 January 1984

314 Obituary

Number 5, Sept/Oct 1984

321 Vimentin intermediate filaments in cultures of human meningiomas
S. J. Lolait, J. R. Underwood, F-T. Mu, F. Alderuccio, C. A. Dow, J. S. Pedersen, P. J. Chalmers and B. H. Toh

333 Morphometric approaches to perifascicular atrophy in muscle biopsy: do they help to diagnose polymyositis?
L. Paljärvi and E.-V. Snäll

343 Opening of the blood-brain barrier in *Anolis carolinensis*. A high voltage electron microscope protein tracer study
R. R. Shivers and R. J. Harris

357 A rodent model of organophosphorus-induced delayed neuropathy: distribution of central (spinal cord) and peripheral nerve damage
Bellina Veronesi

369 Naked axon bundles enclosed by single segments of myelin sheaths in the nerves of non-dystrophic C57BL–ob/+mice
W. Beuche and R. L. Friede

379 Bovine glycogenesis type II. Biochemical and morphological characteristics of skeletal muscle in culture
P. N. Di Marco, J. McC. Howell and P. R. Dorling

397 Case report: Lymphomatoid granulomatosis with cerebral involvement
J. W. Ironside, J. F. Martin, J. Richmond and W. R. Timperley

407 Book reviews

410 Obituary

Number 6, Nov/Dec 1984

411 The organization of astrocytes in organotypic mouse spinal cord culture: an electron microscope study
H. Kusaka, A. Hirano, M. B. Bornstein and C. S. Raine

423 Experimental bilateral carotid artery occlusion: a study of the optic nerve in the rat
J. Takamatsu, A. Hirano, D. Levy and P. Henkind

429 Adrenoleukodystrophy: clinical, pathological and biochemical findings in two brothers with the onset of cerebral disease in adult life
M. M. Esiri, N. M. Hyman, W. L. Horton and R. H. Lindenbaum

447 Some histochemical observations on invasive cells in a myopathy induced in rats with 5-hydroxytryptamine
K. N. Christie and B. V. Modi

461 The effects of multiple sequential episodes of demyelination in the sciatic nerve of the mouse
Susan M. Hall

479 Case report: Carcinoid tumour arising in a recurrent intradural spinal teratoma
J. W. Ironside, A. A. Jefferson, J. A. Royds, C. B. Taylor and W. R. Timperley

491 Author and subject index to Volume 10
